VP BUSINESS AND
INNOVATION, RISE

MADELEINE GILBORNE
HEAD BUSINESS DEVELOPMENT
MANAGER CLEANTECH, ALFA LAVAL

AND MANY MORE

THREE DAYS THREE THEMES

RENEWABLE ENERGY NOVEMBER 10

The focus on Clean Energy investment and an increase in the use of renewable energy has resulted in new jobs and economic growth - while decreasing the carbon emission.

SMART CITIES / BUILDINGS NOVEMBER 11

Smart buildings optimize the use of electrical grids, minimize impacts on the global environment, reduce costs, increase safety, productivity and quality of life.

ENERGY STORAGE NOVEMBER 12

Energy Storage is the missing piece that will facilitate the transition to cleaner energy. Energy storage reduces greenhouse gas emissions, increases grid reliability and reduces costs.
